### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The instant invention is deemed to be a non-obvious improvement over the invention of U.S. Pat. No. 6,478,534. The improvement comprises the use of a first extraction point disposed upstream of a second ejector, proximate the highest geodetic level of the cavity, relative to the blowout direction thereof and a second extraction point proximate to the first ejector, proximate the lowest geodetic level of the cavity, in the blowout direction thereof. It would not have been obvious to one of ordinary skill in the art to modify the invention of U.S. Pat. No. 6,478,534 to include the arrangement of ejectors and extraction points as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
